**Sanjiv Marwah,**  
 Director,  
 JK Business School

The National Education Policy (NEP) 2020 has proposed some nerve-wracking changes and B-School students will benefit tremendously from it. The curriculum of all B-Schools will be revised and become more rigorous and skill-oriented. Practical knowledge and applications will be the key focus of all B-Schools. With the implementation of NEP 2020 students will get the necessary exposure and experience of the real business world. Moreover, all the skills and knowledge needed for real business will be imparted. Earlier, a major focus was on theoretical knowledge which was not clearly applicable in the real business world. Practical knowledge and application-based learning will now be the key focus of all the institutions. Blended learning is an important pedagogy in B-Schools and the same has been put forward brilliantly in the NEP 2020. Blended learning broadens the horizon and develops skill sets, which are essential for the students to succeed in the 21st century's technologically advanced environment.
